

PROGRESSION SUCCESS

Congratulations to all ISCA students who have been offered places on some of the world's most competitive art and design courses including University of the Arts London, Reading University, Goldsmiths, Kingston University, Parsons New York and University College London. Courses range from Fashion Womenswear and Theatrical Design, to Architecture and Animation which reflect the diverse skills and creativity of our talented students.

COLOUR THEORY

First year students have embarked upon an exploration of colour through the formal elements. Workshops covered include emotion, energy, perspective, distance and movement which have produced a variety of outcomes from different art and design disciplines. These seminars have given a clearer understanding about the use of colour and encouraged starting points for future project work.

GRADUATION EVENT

Plans are well underway for the End of Year Show and Graduation Ceremony in June. The highlight will be a fashion show directed by students. Guest of honour Professor Jimmy Choo OBE will present each student with their certificates. Scholarship prizes will also be awarded to first year students in recognition of academic excellence in art and design. The venue for this year's event is beautiful Colston Hall where work from all subjects will be exhibited.

DRAWING FROM LIFE: PART II

Students returned to the National Gallery in London for a Life Drawing workshop, this time focused on the Flemish artist Rubens. His masterpiece The Judgement of Paris provided the inspiration for the session and students enjoyed the opportunity to hone their drawing skills.
