

OUTSTANDING PROGRESSION SUCCESS

We are delighted to announce that in excess of 98% of second year ISCA students have been offered places at their chosen universities including Central Saint Martins, London College of Fashion, London College of Communication, Chelsea College of Arts, in addition to Goldsmiths University, Architectural Association and Parsons Paris. Students worked exceptionally hard throughout the spring term to produce outstanding portfolios that reflected their area of interest. Warmest congratulations to all!

EGG-CELLENT IDEAS!

To celebrate the end of the spring term, students were set the task of using all their ingenuity and product design skills to create packaging that would protect an egg from breaking when dropped from a great height! The final outcomes were judged for their presentation, creativity and function. Well done to the Scientists team for coming up with a highly original and inspired design.

ART AND DESIGN CRITIQUES

As a key skill within art and design practice, regular critiques form a fundamental part of the curriculum at ISCA. Most recently a mid-term critique led by Executive Director Colin Kerrigan and subject tutors provided an opportunity for students to showcase their work in progress and talk about their original concepts. Promoting this creative dialogue enables students to discuss their ideas fluently and reflect on their work.

ISTITUTO MARANGONI

ISCA was delighted to welcome Chiara Marcheschi from Istituto Marangoni who presented the London college to students and talked through the courses and opportunities available across its eight campuses worldwide including Milan, Paris, Shanghai and Mumbai. Students can choose to study at multiple centres and access industry experience at leading brands including Bulgari and Stella McCartney. Students had many questions related to portfolio requirements and short courses.
