

RESIDENTIAL ART TRIP

The 2018 Swanage residential trip to the beautiful, serene Jurassic Coastline gave all new year 1 students at ISCA many creative challenges. Over the course of three days, the group worked on a variety of drawings, paintings and installations from primary observation, while also developing outcomes for the new theme: Time is Change. Delivered by ISCA tutors, each workshop took place at different locations including Swanage beach and town, Durlston Country Park, Durlston Castle and Corfe Castle.

ARTS UNIVERSITY BOURNEMOUTH

Chloe Swann of Arts University Bournemouth visited ISCA in October to present its broad range of art and design undergraduate courses. AUB is one of the leading art and design universities in the UK and has recently been awarded Gold by the Teaching Excellence Framework.

BESPOKE WORKSHOP

Jacqueline Sealy, an accomplished bespoke tailor with admirable knowledge and skill in the art of tailoring gave year two Fashion and Textiles students a dynamic introduction to the basics of bespoke tailoring in a special evening workshop. Students worked on practising various hand stitches used in bespoke tailoring and created a small scale sample of a tailored jacket, testing the different materials that are used to create shape and structure. Students benefited hugely from Jacqueline's expertise both as a tailor and also Programme Leader at London College of Fashion on the BA Bespoke Tailoring course.

HAPPY HALLOWEEN

When ISCA students prepared decorations for Halloween, the results were truly spellbinding. With pumpkins carved, and the common room transformed into a ghostly cavern, a party to celebrate was a chance for all trick or treaters to dress in costume, unleash their talents with the makeup brush and have some seasonal fun.
