

## SUMMER PROGRAMME HIGHLIGHTS

At this year's ISCA Summer School students developed their creative thinking through a series of special workshops designed to improve practical skills. In addition, there were many opportunities to explore the local area and visit famous London landmarks including St Paul's Cathedral and the Tate Modern gallery. Other highlights included a private tour of Central Saint Martins College, which gave students a better understanding of university learning, and a research trip to the beautiful city of Oxford to do observational sketching.

The Summer School was a busy and fun time for all involved, and culminated in a final exhibition which reflected an experimental and thoughtful approach to creative work. There was also a special presentation of prizes for individual effort.

## EXCELLENT EXAM RESULTS

We are incredibly proud of our graduating students for their great success in the A Level exams this year. Overall, close to 95% of them achieved grades A\* to C in the subjects of Fine Art, Textile Design, Graphic Communication, 3D Design and Critical & Contextual Studies. We would like to congratulate all of them on their achievement, and wish them every success as they take up their university places.

## CREATIVE ENERGY

A very warm welcome to the new ISCA students who have taken on their first group creative challenge with great enthusiasm. The workshop this week was titled "When is a Chair not a Chair?", and this resulted in original ideas and pieces that were then discussed in a lively critique. Students enjoyed sharing ideas and using their practical skills to meet the brief.
