

CREATIVE, CULTURAL AND ENGLISH LEARNING IN ONE SHORT COURSE

Study Abroad at ISCA meets the aspirations of the growing number of students (15 to 18 years old) who wish to join an international programme specialising in both the creative arts and English language lessons.

Study Abroad is a unique programme that offers young people the opportunity to experience an international art and design educational and cultural experience in the UK.

Study Abroad encapsulates ISCA's philosophy of student-centred art and design teaching, whereby participants explore the creative arts in a broad and conceptual way while building core practical skills.

Study Abroad encourages students to engage in the creative process and foster critical thinking skills to realise ideas.

Art and Design lessons take place in the well-equipped specialist design studios.

ENGLISH LANGUAGE

A key element of Study Abroad is the focus on improving and practising English Language skills at all levels. English is taught by highly experienced language tutors. English is taught by highly experienced language tutors in small groups.

CULTURAL LONDON

Students can also enjoy all that London, one of the world's leading cultural centres, has to offer through specially organised trips to museums and galleries.

Study Abroad is a great way to explore creativity, a new culture and enjoy new experiences in a supportive educational environment.

Study Abroad provides an international educational experience that familiarises students with the expectations of higher education study. It could be a taster course for those considering a future A Level programme.
